

Rehabilitation Review Packages 2011/12

Designed for Spinal Cord Injuries, Strokes, and other Neurological conditions

Packages have been designed by our specialist inter-disciplinary team of nurses, therapists, and specialist medical consultants to address important aspects of a client's care, rehabilitation and wellbeing in an easily accessed, convenient, well planned manner.

1. Inpatient Package – 5 days £3500.00

This package is suitable for those requiring a full rehabilitation review and includes:

- Accommodation
- Consultant Assessment
- Specialist Nursing Assessment (covering issues such as skin and pressure care, bowel and bladder management.)
- Physiotherapy Assessment
- Occupational Therapy Assessment
- Wheelchair/Seating Assessment
- Hydrotherapy
- Introduction to FES/ Bioness/ Smartnav Head control System
- Written report with recommendations

An up to date medical report, including current medication, will be required prior to commencing the inpatient review.

2. Outpatient Package – 1 day £300.00

This package is suitable for those who do not require a Consultant or Nursing Assessment, and are self caring, or who employ their own carer. Accommodation is not part of the package but, if required, would be available at a local hotel at own cost. Assessments included are:

- Physiotherapy Assessment
- Occupational Therapy Assessment
- Written report with recommendations

Out-patient Appointments

We continue to offer a wide range of services that can be quickly accessed on an out-patient basis. These include Wheelchair and Pressure Mapping Services, Physiotherapy (including walking with callipers), Occupational Therapy, and Neuro-musculo-skeletal analysis, Hydrotherapy, and Consultant appointments. Additional physiotherapy or Occupational therapy sessions can be purchased at the rate of £76 per hour and hydrotherapy at the rate of £50 per half hour session.
